

Strong, Durable And Efficient

Some of our competitors get bent out of shape when we suggest their product can't stand up to our standards. Our sill section is substantially stronger than most windows on the market today, a feature that is especially important in supporting heavy insulated glass.

Aluminum Comparison

3.4 times stronger than vinyl
43 times stronger than wood

Ultra efficient insulated barrier used in frames and sashes dramatically reduces HEAT + COLD transfer through the aluminum, an exceptional insulator like wood and vinyl but with the durability of aluminum.

Heavy Duty metal spiral balances for dependable, smooth maintenance free operation. No ropes or pulleys to wear or break.

Thermally insulated glass system with an advanced non-conductive edge spacer retards heat and cold transfer through the edge of the glass for additional energy savings.

Interlock system locks both sashes together to prevent high winds from separating sashes, provides tighter seal and added security.

Safety tilt latch allows sash to tilt in for easy cleaning. Safety lock prevents children from inadvertently tilting window.

Premium performance weather-stripping with mylar-fin barrier on two sides of sash gives double protection against wind, dust, air-borne allergens and noise pollution.

Aluminum glazing bead holds up against the sun's damaging UV rays, will not crack and warp like common plastic glazing beads (shown to the right). Our premium aluminum glazing beads eliminates the possibility of air and water leakage.

Simply put, these windows provide the very best in design, construction, energy savings, low maintenance and superior longevity. All custom built to fit any window in your home.

Available Options:

Solar & Aluminum Screens
Tinted Glass —
Bronze, Gray or Green

Cardinal® 170 LoE² with argon gas and the XLEdge™ dual seal spacer system

Thermally Insulated Aluminum Windows

The Desired Effect[®]
Classic Beauty
Energy Efficient
Maintenance Free

Energy Savings, Solar Control And Noise Protection

Our goal is to make the most efficient, easy to clean, durable and maintenance free windows possible. From our thick aluminum walls, which provides the best choice for strength and durability, to our baked-on enamel paint finish — tough enough to stand up against the harshest of Summers and the coldest of Winters.

No need to worry about painting these windows. Best of all, a superior insulated glass system that provides optimum energy performance and outside noise control. We can also offer an optional solar control glass that offers protection against UV rays and scorching Summer heat. All backed by our limited lifetime warranty.

Single Hung W I N D O W S

- $\frac{3}{4}$ " insulated glass provides year round energy savings and an excellent sound barrier to outside noise.
- Aluminum glazing bead for added durability and security.
- Bottom sash tilts inward for safe and convenient cleaning.
- Continuous interlock provides a tighter seal greatly reducing the amount of dust and pollen entering your home.
- Double Finseal Weather-stripping virtually eliminates air, dust and water from entering your home.
- Metal spiral balances for dependable smooth trouble free operation.
- Child resistant tilt-in latches for added safety.
- Electrostatic baked-on paint for a tough, durable smooth finish.
- Polyurethane thermally insulated sash and frame dramatically reduces heat and cold transfer. Helps minimize condensation.

**Commercially Rated
2 $\frac{3}{4}$ " Main Frame Depth**

Double Hung W I N D O W S

- $\frac{7}{8}$ " insulated glass provides year round energy savings and an excellent sound barrier to outside noise.
- Wrap around marine glazing blocks out cold air and water infiltration, and easily replaces in the event of glass breakage.
- Both sashes can ventilate or tilt-in for safe and convenient cleaning from inside your home. No need to clean from dangerous ladders.
- Interlocking meeting rails for tighter seal and added security.
- Double Finseal Weather-stripping virtually eliminates air, dust and water from entering your home.
- Metal spiral balances for dependable smooth trouble free operation.
- Child resistant tilt-in latches for added safety.
- Electrostatic baked-on paint for a tough, durable smooth finish.
- Polyurethane thermally insulated sash and frame dramatically reduces heat and cold transfer. Helps minimize condensation.

**Commercially Rated
3 $\frac{1}{4}$ " Main Frame Depth**

**All Covered Under Limited
Lifetime Warranty**
