PERFORMANCE SIDING

# NO-NONSENSE

SOLID CORE SIDING® offers a complete exterior siding system combining superior energy efficiency with durable, long-lasting beauty. Its tough Vycralar™ surface is bonded with SOLID CORE™ backing, creating a product with unmatched bridge strength, superior R-Values and air infiltration ratings, and guaranteed impact resistance. These exceptional qualities allow SOLID CORE SIDING to be backed by the industry's only **No-Nonsense Life of the Home Warranty**.

The manufacturer warrants to the homeowner that SOLID CORE SIDING will not peel, blister, pit, flake or corrode as a result of manufacturing defects or as a result of exposure to ocean air (salt spray). Unlike conventional veneer-type sidings, which are warranted only to the initial homeowner, SOLID CORE SIDING is warranted for the lifetime of the house — the period for which the structural integrity of the house remains intact.

In order to transfer this warranty, the new homeowner can simply return the enclosed transfer card within 30 days of the transfer of ownership of the house.

In the case of “commercial” installations — such as apartment buildings, condominiums, etc. — the period of warranty coverage shall be 60 years.

# LIFE OF THE HOME WARRANTY ADDITIONAL WARRANTY COVERAGE

## UNIFORM WEATHERING

The manufacturer warrants that SOLID CORE SIDING will weather in a uniform manner and that weathering changes will not occur on a specific wall exposure in a manner that varies from panel to panel (checkerboard effect).

## DEGREE OF WEATHERING

For the lifetime the original homeowner owns and lives in the home, SOLID CORE SIDING is warranted not to change color in excess of 4 standard industry color units as determined by the manufacturer.

## HIGH IMPACT RESISTANCE

Our tests have demonstrated that SOLID CORE SIDING is 300% more resistant to cracking than conventional hollow-backed sidings. Should SOLID CORE SIDING panels crack for reasons associated with normal home ownership (for example, hail damage), the manufacturer will replace all damaged panels, including the cost of material and labor, which exceeds the amount covered by the homeowner's insurance policy. Proof of submission and resolution from the homeowner's insurance company (and promptly following the warranty procedure below) are required before final settlement of the claim.

## COVERAGE AGAINST CHALKING

Our SOLID CORE SIDING panels are produced with an exclusive Vycralar™ formulation featuring treated TiO<sub>2</sub>, and are warranted not to chalk in an offensive manner that could cause discoloration of trim areas.

## COVERAGE AGAINST SEPARATION

Bonding technology ensures the structural integrity of our SOLID CORE SIDING panels. Therefore, our panels will not separate so as to negatively affect the performance of the product.

## WIND RESISTANCE

Our tests have demonstrated that SOLID CORE SIDING will withstand the equivalent of up to 215 mph windloads. These windloads vary based upon the specific product profile. If winds up to the speeds indicated in the chart below cause a panel to separate from the structure, the manufacturer will replace any damaged panels — including the cost of materials and labor.

Product Profile	Maximum Windloads
6.5" Beaded	215 mph
Double 7	200 mph
Triple 6	195 mph
Quad 4 1/2 Dutchlap	165 mph
Double 10 Board & Batten (Fastened at 8" O.C.)	150 mph
Quad 4 Clapboard	150 mph

## PRODUCT INTEGRITY

Our SOLID CORE SIDING has been tested extensively by us in freeze, thaw and heat cycles to ensure proper panel performance. Therefore, when properly installed, should SOLID CORE SIDING panels buckle for reasons associated with expansion or contraction, the manufacturer will replace the damaged product — including the cost of material and labor.

## MOISTURE PROTECTION

All expanded polystyrene material used in the production of SOLID CORE SIDING has been tested to a Perm Rating of 5. The product will breathe and is warranted not to retain moisture.

## MAKING A WARRANTY CLAIM

Within a reasonable time after discovery of a suspected manufacturing defect, you may contact your contractor or complete a claim form and forward it along with other information outlined in the form instructions to the Warranty Department at the address listed on this warranty document. Warranty Claim Forms can be obtained from [www.cranesiding.com](http://www.cranesiding.com) or by contacting the Warranty Department at 1-800-366-8472. The manufacturer will then investigate the claim and examine the material claimed to be defective. If a defect covered by this warranty is confirmed, the manufacturer, within a reasonable amount of time after the inspection, will repair or replace (at the manufacturer's option) the SOLID CORE SIDING product — including the pre-approved cost of material and labor. The manufacturer may, at its option, refund the amount paid by the homeowner for the SOLID CORE SIDING and accessories plus the reasonable cost of installation.

## ITEMS NOT COVERED BY WARRANTY

This warranty does not cover damage or defect caused by settlement or shifting of structural members or adjoining surfaces, structural defects of the building, fire, wind, flood, lightning or other acts of God (except those specifically warranted against in this warranty document), intentional acts and unreasonable use, accident, negligence, exposure to harmful chemicals, fumes, airborne stains, mold and mildew. This warranty does not cover siding that has distorted or melted due to exposure to excessive heat sources (e.g. barbecue grills, reflection from windows, blacktop). Improper installation of the SOLID CORE SIDING product renders all warranty coverage null and void. The installation of accessory products — which are either inherently incompatible with the product covered by this warranty, or which are installed in a manner detrimental to the performance of SOLID CORE SIDING — will render this warranty null and void. SOLID CORE SIDING cannot be painted or its surface altered in any way without written authorization from the manufacturer and doing so will void the warranty. Any repair or replacement of product without prior written authorization from Crane Performance Siding will render this warranty null and void. The manufacturer reserves the right to direct and pay an independent company, dealer, contractor, applicator or distributor to perform any remedy under this warranty on manufacturer's behalf.

## LIMITATIONS

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS CONTAINED IN THIS WARRANTY. ORAL STATEMENTS DO NOT CONSTITUTE WARRANTIES.

THE MANUFACTURER'S LIABILITIES ARE LIMITED SOLELY AND EXCLUSIVELY TO THE OBLIGATIONS SPECIFICALLY UNDERTAKEN HEREIN AND (EXCEPT AND ONLY TO THE EXTENT THIS LIMITATION IS SPECIFICALLY PRECLUDED BY APPLICABLE LAW OF MANDATORY APPLICATION) DO NOT INCLUDE ANY LIABILITY FOR ANY INCIDENTAL, CONSEQUENTIAL, OR OTHER DAMAGES OF ANY KIND WHATSOEVER, WHETHER ANY CLAIM IS BASED UPON THEORIES OF CONTRACT, NEGLIGENCE OR TORT.

Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.

## APPLICATION FOR TRANSFER OF THE SOLID CORE SIDING NO-NONSENSE LIFE OF THE HOME WARRANTY

Application is hereby made for the transfer of the SOLID CORE SIDING No-Nonsense Life of the Home Warranty.

Name \_\_\_\_\_  
(The new owner of the property upon which the original Crane SOLID CORE SIDING installation was made.)

Name of former owner \_\_\_\_\_
