

PINNACLE

PATIO DOOR

HIGH VALUE, HIGH PERFORMANCE

Practical, yet still packed with standard features and many options from which to choose, the Pinnacle is a remarkable blend of form and function.

The Pinnacle is cost effective, but still uncompromising in strength, versatility, and function. Energy saving glass options and many divided lite patterns to choose from make it easy to select what is right for your budget. Choose from our Energy Smart and Solar Smart glass options to make your room more energy efficient.

Available in standard and custom sizes in 2, 3, or 4 panel configurations. Choose from 3 standard colors: Cream, Beige, or Clay or one of 12 exterior colors to further customize your design.

Choose the configuration that creates the perfect look for your home. Four panel door is only available with one operating panel.

DISTINCT EXPRESSION

Standard Colors

All Colors

Our many divided lite options give your patio door the look of multi-paned glass. These options give you the flexibility of selecting the look that best enhances the beauty of your home.

*SDL is a grid system that is applied to the exposed surfaces of the glass to closely replicate authentic divided lite windows.

STUNNING STYLE

Our Soft Coat Low-e glass options provide maximum protection to your home in winter and summer. We've developed these Smart Glass options to allow you to choose the glass that best fits your budget and performance requirements:

- Low-E
- Energy Smart
- Solar Smart
- Tinted glass

For more information on Smart Glass, visit: WeatherBarr.com

SMART GLASS

PINNACLE

- **Fusion Welded Frame and Sash:** Welded joints provide superior strength and ensure joints remain air and water tight.
- **Multi-Chambered Extrusion:** Rigid, extruded vinyl has multiple chambers in the sash and frame to provide exceptional strength and insulation value.
- **Interlocking Sashes:** When closed and locked the full length interlock joins the active panel to the passive panel with dual weather-stripping creating a barrier to air infiltration.
- **Performance:** Designed to meet up to AAMA DP50 specifications.
- Available with nail fin, nail fin and J-channel, or block frame types.
- Additional security options include multipoint lock and key lock options.
- Color match hardware for beige and cream, black hardware for clay and ColorGard exterior colors
- Heavy duty screen standard
- Custom sizes available for any size opening (within minimum and maximum tolerance).
